

DTS Mission

DTS delivers cyber, consulting and management services—for exceptional results. After more than a decade in the industry, we remain focused on helping clients respond to changing environments and daunting challenges by clarifying pathways, applying expertise, and managing implementation.

Our Story

DTS was founded in 2011 with the vision to create a culture that facilitates the advancement of its employees, customers, and the industry. Its foundational values continue to guide the company's work, growth, and community involvement.

DTS delivers cyber, consulting and management services —for exceptional results. After more than a decade in the industry, we remain focused on helping clients respond to changing environments and daunting challenges by clarifying pathways, applying expertise, and managing implementation.

DTS leads through innovation, using technology to transform challenges into opportunities and continually looking for better, more efficient processes. We employ talented individuals with a passion for excellence and surround them with the resources they need to excel. DTS was founded on strong values that continue to guide our work, and our growth.

Our Expertise

Combining perspective with innovation and subject matter expertise, DTS creates powerfully effective solutions to client challenges. Our teams assess and answer specific questions, solve multi-faceted issues through technology, manage complex projects, and shape plans for the future – all with an unwavering commitment to client service.

DTS focuses on three core pillars—cybersecurity, federal health and professional services—serving clients across Defense, civil, commercial, health, Veteran-owned business and nonprofit. These engagements are distinguished by:

Innovation DTS leads through innovation, using technology to transform challenges into opportunities and continually looking for better, more efficient processes. We work together as a team, applying big firm resources, with a small firm focus.

Customer focus We develop and maintain a meaningful focus on our customer relationships, goals, and missions. We help clients respond to changing environments and daunting challenges by clarifying pathways, applying expertise, and managing implementation.

Agility We understand the nuances of our markets and communities and the pace of business. We embrace change, seeking to adapt and thrive early, and using trends or outside forces to drive positive changes within DTS and for our customers.
